

glenrush

classic inspirations

With influences from yesterday's

traditional styling, the Glenrush family

utilizes unique styles of glass, such as

clear swirl, mica and glue chip, while

combining them with clear bevels to

create an elegant style. Merging the

beauty of the glass with our standard

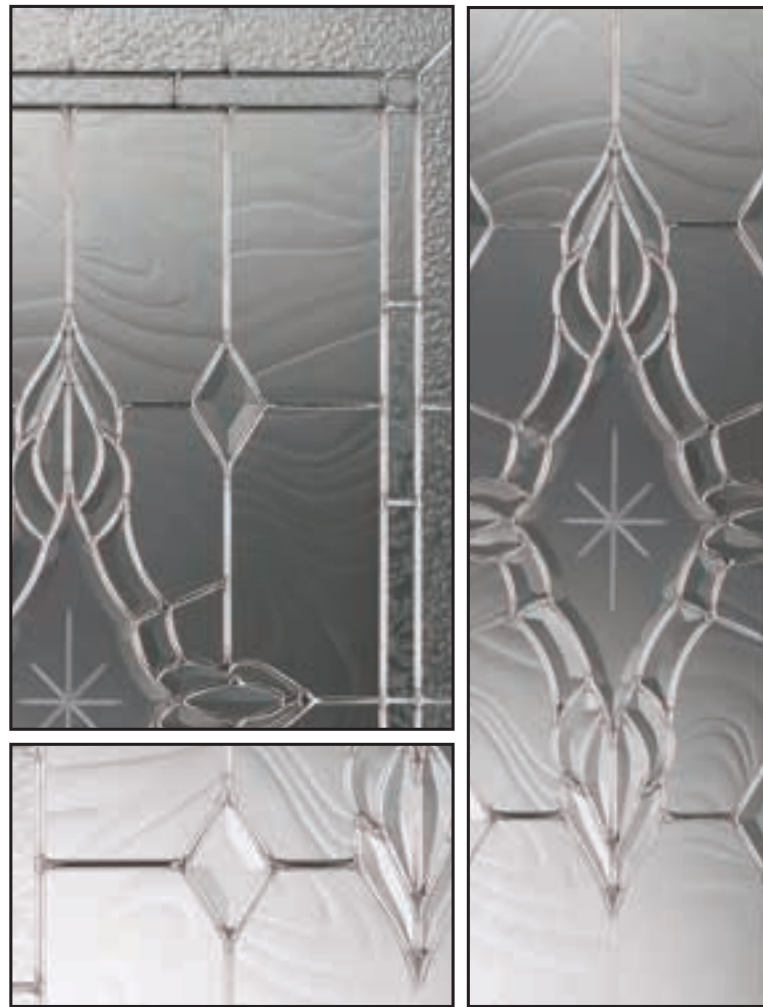

brass or zinc coming will instantly

enhance the charm of your home.

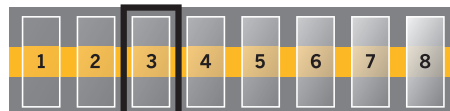

Customizing this design by using one of

our many coming or glass options will

add your personal touch.
