

decorative glass detail

privacy glass monitor

ormsby

classic inspirations

Simplistic charm, rich with subtle details

and privacy. The Ormsby delivers on

the promise of character by using clear

bevels and obscure glue chip bevels on

a glue chip background. This traditional

design will add style and refinement to

any entrance. Standard coming for this

collection is brass and zinc, but to claim

a style all your own, you can optionally

customize this design.
